- Observation
- Decision making
- Communication
- Multi-tasking
- Team player
- Attention to detail

Education Background

- Sefako Makgatho Health Sciences University

  BSc Honours Computer and IT
  Completed in 2023

- Sefako Makgatho Health Sciences University

  BSc Mathematical Sciences
  Completed in 2022

About Me

Highly motivated and detail-oriented Computer Sciences graduate with a passion for innovation. Known for a strong work ethic, I am a hardworking professional committed to achieving project goals and exceeding expectations. I am a good team player and I excel at discipline and punctuality. Open to new opportunities and ready to contribute to innovative projects.

Professional Experience

Sefako Makgatho Health Sciences University | ICT Intern
March 2023 – November 2023

Key responsibilities:
- Led a four-member team in the design and implementation of an innovative vehicle parking management system for the university to monitor and manage vehicle flow, enhancing campus security and parking efficiency.
- Spearheaded the QA process for critical educational software systems developed by Adapt IT, leading a team to meticulously document and report errors, contributing to a 15% overall decrease in system bugs and enhancing user experience for students and faculty.
- I successfully created a brochure that demonstrates a step-by-step process of how to use the Student Online Refund system.
- Provided technical support to end-users, troubleshooting hardware and software issues.
- Provided assistance in ICT training and knowledge transfer to end-users.
- Assisted in the development and maintenance of software documentation, including requirements, design, and user manuals.
